REGGIO CHILDREN PUBLISHING

Exhibitions Publishing Ateliers

Reggio Children weaves its publishing with the design of exhibitions and ateliers and professional development and research. In collaboration with Preschools and Infant-toddler Centres – Istituzione of the Municipality of Reggio Emilia*, it promotes exchanges and reflections on children’s cultural creativity and on the determining role of education and public schooling in contemporary society.

This publishing catalogue presents projects and reflections from the Reggio Emilia Approach, catalogues of the several exhibitions, and research carried out starting from childhood and bringing together children’s different knowledges, voices, and thoughts. Reggio Children’s publications are also translated into several languages.

Comune di Reggio Emilia
REGGIO EMILIA APPROACH®

* The *Istituzione* is the municipal body for managing the network of the educational centres for early childhood
www.scuolenidi.re.it

Many of these books and videos present images, drawings and texts by teachers, atelieristas and pedagogistas, and by children in Reggio Emilia's municipal infant-toddler centres and preschools. Writing in which words and images are often interwoven, making visible and perceivable an unusual image of childhood. A new and hybrid language that declares and supports the value and the importance of the aesthetic dimension of knowledge.

Part of our publishing activity is the **Rechild** magazine, created to respond to national and international demand for information, in-depth exploration and exchanges about education and childhood. The magazine can be downloaded from our website: www.reggiochildren.it

The **exhibitions**, conceived as travelling “democratic piazzas”, act simultaneously as tools for professional development, research and communication. They are also accessible for a non-specialist public and invite reflection on childhood and on the role of education.

The exhibitions are juxtaposed with **ateliers**, themselves generators of exhibitions, interesting and joyful “workshops” for experimentation and construction of learning and knowledge through quality processes.

Both exhibitions and ateliers are requested and shown in different languages everyday around the world.

Bordercrossings

Encounters with Living Things / Digital Landscapes

A catalogue of the exhibition shown at the Loris Malaguzzi International Centre 2015-2018, which is also travelling in other countries, with the aim of imagining a digital poetic: to research into how new media involve children and adults, the ways they create meaning, how they modify communication and the exchange of knowledge; to produce metaphors, utopias, and imaginings for possible futures. Because children venture into the unforeseen and the world's plurality, and confront its changing and surprising complexities, whether in encounters with living things, or the creation of digital landscapes and the discovery of unexpected phenomena.

One city, many children

Reggio Emilia, a history of the present

The story of the birth and development of Reggio Emilia's municipal preschools and infant-toddler centres: a broad research project bringing together the voices and thoughts of many protagonists.

A collective auto-biography, a passionate story woven with other stories in a long but thin fabric of *silk threads* as Loris Malaguzzi used to say:

"...a history made in this way could pass for a history that has travelled down the years and seasons... instead experiences of this kind, so anomalous, always walk on threads of silk".

Dialogues with places

Every place has its own *soul*, and identity; trying to discover it and establish a relation with it means learning to recognise one's own soul. Children in Reggio Emilia's infant-toddler centres and preschools explored the Loris Malaguzzi International Centre while it was a building site, they chose a space they found interesting and designed a work, a gift in harmony and in dialogue with the selected place.

In the exhibition *Dialogues with places*, children's experiences and projects become a large workbook.

CATALOGUES AND PROJECTS

Mosaic of marks, words, material

This catalogue presents the exhibition shown at the Loris Malaguzzi Centre since 2014 and in other countries, a collection of works by young girls and boys in the municipal infant-toddler centres and preschools of Reggio Emilia.

The aim of the investigation was to try, as far as possible, to gain a better understanding of the poetic interweaving between children's drawings and words, in order to restore to drawing, to the instruments and materials, to words and to the children, the cognitive and expressive richness they generate.

Theater curtain

The ring of transformations

The story of the project and of the processes which lead the children in the Diana municipal preschool to the creation of a new theater curtain for the Ariosto Theater in Reggio Emilia: a large fresco, a cosmogony in which each subject represented is interrelated with the others. A part from the extraordinary theme, what is highlighted here is the dynamic of working in groups, how ideas are generated and developed in the group, and how adults intervene.

“The children have had a taste of the ‘pleasures of thinking’, the excitement, hard work, and joy of thinking together. They have pursued the beauty of ideas, experienced the difficulties of certain moments and the rigor of decision making. They have been impassioned, amazed at the final result of their own work and have appreciated its beauty.” Veà Vecchi

The languages of food

Recipes, experiences, thoughts

We are what we eat! But what do we eat? In Reggio Emilia the choice of having and keeping kitchens inside every municipal infant-toddler centre and preschool has always had a strong pedagogical and cultural meaning. Kitchens become a virtuous weave of local culinary tradition, ecology, culture of dialogue, art, and the world. The time for lunch becomes a space of relations and encounter with others and the world. From this context a cook book was born, made of good recipes, experiences, projects, thoughts.

The Wonder of Learning *The Hundred Languages of Children*

The catalogue of a large exhibition, born international, and travelling the world since 2008; it speaks of the developments and the innovative drive of the educational experience in Reggio Emilia. The latest projects conducted in Reggio Emilia's municipal infant-toddler centres and preschools are presented in five different sections. The catalogue is a broad interdisciplinary kaleidoscope, traversing different languages and media. AUDIOVISUAL MATERIALS: *VISIONARIA* SERIES

The latest audiovisual series from Reggio Children

Video is a language that has been present for a long time in the “toolbox” of the municipal infant-toddler centres and preschools of Reggio Emilia, in the ateliers, in the exhibitions that have travelled around the world, and in the conferences and seminars held at the Loris Malaguzzi International Centre.

A further challenge in support of the idea of education and knowledge seen as interweaving of different languages.

Participation is an Invitation

Citizen, citizenship, participation

This video was created for the 2012 edition of the international photography festival *Fotografia Europea*, and collects words and ideas of children about community, citizenship, participation, migration, rights, responsibilities...

The children’s reflections represent a special opportunity to re-launch the themes of welcome, borders, and democracy in other contexts too, and we hope to elicit new stories and new occasions for listening.

CORIANDOLI SERIES

A series created with the aim of disseminating and fostering the “micro-publishing” of the infant-toddler centres and preschools of the Municipality of Reggio Emilia. It is a lively and varied multitude of books, booklets and publications with a common identity in that they are designed and put together directly in schools and centres by teachers, atelieristas and pedagogistas. They represent journeys of research selecting and interpreting the words and strategies in children’s thinking. The protagonists are always the children, their voices, their thoughts, their theories.

The strength of narrative lies in a constant search for new ways of finding a balance between contents and ways of expressing and communicating them. The *Coriandoli* series aims to give greater value to this special “publishing legacy” and promote its wider diffusion and production. The series is conceived in non-standard formats seamless with the character of the original publications and preserving as far as possible their hand crafted features.

We write shapes that look like a book

A project about the park of the Pablo Picasso Infant-toddler Centre with the aim of supporting and refining the potential for ecological sensibility all children possess. The city initiative “Città *inattesa*” (City *inwaiting*) became an opportunity for extending out gaze, meeting the city park with the same approach, leaving traces of this encounter.

THE UNHEARD VOICE OF CHILDREN SERIES

Children are real researchers: they elaborate and modify theories, with others and individually, while they interpret the world and things.

School can become the place for research into meaning and sense, for that tension towards knowledge that children also experience autonomously.

“Children talk, and they have always talked, though their words are rarely listened to and leave no trace.

The words of children may at times seem strangely similar to our own, but they recall faraway and unknown worlds and meanings to which we as adults too often remain deaf and insensitive. Giving a voice to childhood thus means recognizing children’s right to be the primary authors of their lives. Giving a voice to children is the courageous adventure of this editorial series that urges us to open our ears and listen to this unheard voice.” Sergio Spaggiari, 1995

A journey into the rights of children

A “dictionary” of rights: Diana Preschool children’s point of view about the concept of rights.

And on this occasion the ideas of boys and girls are purposely kept distinct. The publication includes “A Charter of Rights” written by Loris Malaguzzi in 1993.

“Let’s make an amusement park for the birds!”
A starting idea with many proposals to follow. A laboratory where hands work with thoughts and inventions to give the dimension of reality to the amusement park, which will be constructed and will work in the park of La Villetta Preschool. A book with many voices: children, teachers, atelieristas, birds; and with the participation of George Forman and Loris Malaguzzi.

The little ones of silent movies

*Make-believe with children and fish
at the infant-toddler centre*

An extraordinary adventure between one- and two-year-old children and little fish in the Rodari Infant-toddler Centre of Reggio Emilia.

“The whole story is silent, like in the old movies of Buster Keaton, Charlie Chaplin, Laurel and Hardy, as if the children were their rightful heirs... The story unfolds without spoken words, but they are here in disguise, pervading the children’s experiences in a secret stream that ensures the continuance of dialogue and reciprocity, the feeling of being alive, listened to, understood.” Loris Malaguzzi

REMIDA SERIES

the Creative
Recycling Centre

REMIDA, the Creative Recycling Centre, a project of the Municipality of Reggio Emilia and AGAC (now IREN Emilia), was opened in 1996 in Reggio Emilia, managed by the International Association Friends of Reggio Children (now Reggio Children – Loris Malaguzzi Centre Foundation). This ecological, ethical, educational, aesthetic and economic challenge and the many different activities of REMIDA have also become a published series describing projects, ideas, hopes for a good, beautiful, clean and just future.

The book presents an unusual collection of unpredictable, surprising and ironic bicycles.

REMIDA Day

Muta... menti (Mind mutations)

Every year in May the city of Reggio Emilia is transformed: squares and roads welcome children and adults, the elderly and the young, and everyone has the opportunity to think sustainable development starting with a gaze which is not only alarmed and alarming, but curious and attentive. The book describes the first four editions of “Remida Day”, which in 2018 reached its 19th edition: a myriad of initiatives and events promoted a new culture of recycling.

Martino Has Wheels

Martino has wheels is the story of a girl who loves telling stories and a very silent child who listens to her and smiles.

Emma and Martino meet each other on the delicate terrain of relations, their friendship grows with curious and empathetic intelligence, it causes traditional ideas of learning, language and knowledge to stumble.

The book has been written by a mother experiencing the growing up of her son whose special rights, still today, pose important questions.

With lightness, without words, Martino's wheels, turning on these pages, write a universal declaration: difference makes us human.

NOTEBOOKS OF THE LORIS MALAGUZZI INTERNATIONAL CENTRE SERIES

A new series of reviews and deeper study of topics covered in meetings, seminars and conferences promoted by, or in collaboration with, Reggio Emilia's municipal education system, in dialogue with Italian and international bodies, and blending different worlds and disciplines.

Accorpamenti

Resonances between dance and music

The book documents the results of a seminar promoted by the *Tavolo 0-6 per la danza e la musica* [0-6 round table for dance and music], an inter-institutional working group established in Reggio Emilia to better qualify the presence of these two performing languages in the daily activities in early childhood services and in teacher professional development.

The text offers contributions from the fields of philosophy, ethnomusicology, neuro-sciences and art, woven with projects in the municipal infant-toddler centres and preschools of Reggio Emilia, which are documented and narrated in the enclosed DVD.

Loris Malaguzzi and the Schools of Reggio Emilia

A selection of his writings and speeches 1945-1993

Despite Malaguzzi's reputation, very little of what he wrote or said about early childhood education has been available in English. This book helps fill the gap, presenting for the first time in English, writings and speeches spanning 1945 to 1993, selected by a group of his colleagues from an archive established in Reggio Emilia. They range from short poems, letters and newspaper articles to extended pieces about Malaguzzi's early life, the origins of the municipal schools and his ideas about children, pedagogy and schools. This material is organised into five chronological chapters, starting at the end of World War Two and ending just before his death, with introductions to each chapter providing background, including the historical context, the main events in Malaguzzi's life and the rationale for the selection of documents.

TRAVELLING EXHIBITIONS AND ATELIERS

The Wonder of Learning

The travelling exhibition *The Wonder of Learning* aims to draw attention to the importance of education, and of school as a place for discussing and exchanging ideas.

In continuity with the previous exhibition *The Hundred Languages of Children* it wishes to reaffirm the values at the foundation of the educational philosophy of Reggio Emilia and, above all, describe its changes, innovations, developments. The exhibition addresses the world of school and a wider public interested in the value of research into educational and learning processes.

Bordercrossings

Digital Landscapes

Encounters with living things

The aim of the exhibition is to imagine a digital poetic; to research into how new media involve children and adults, the ways in which they create meaning, how they modify communication and exchange of knowledge; to produce metaphors, utopias, and imaginings for possible futures.

Like Alice in Wonderland with rabbits, march hares, gryphons, lobsters dancing the quadrille, mock turtles and mad hatters, children venture into the unforeseen and the world's plurality, and deal with its changing and surprising complexities, whether in encounters with living things, or in the creation of digital landscapes, and the discovery of unexpected phenomena.

Mosaic of graphics, words, material

Drawing means imagining, analysing, reinterpreting, communicating. Telling a story means exploring words, metaphors, imagery and emotions, rhythms and pauses, entering into a narrative dimension that plays on both reality and fiction.

Though drawing and storytelling can be autonomous languages, words and stories, silent or expressed, for children almost always accompany and interweave with drawings to form an intelligent and often poetic mosaic. The aim of this exhibition is to try, as far as possible, to gain a better understanding of this weave, restoring drawings, materials, words and children, the cognitive and expressive richness they generate.
